THIS RECOMMENDATION is the result of updates made in response to FLDOE's recent feedback regarding the College's previous General Education review and list approved by the NFC Board of Trustees in June 2024. Florida Statute requires all public postsecondary institutions to annually review their general education course offerings to ensure compliance with the content, principles, and standards required for general education courses in the state of Florida. Each institution's Board of Trustees must approve their institution's general education course list.
